

PROGRESSIVE TESTING

You can improve your health and keep it that way through **Progressive Testing**. We can uncover an existing problem or weakness in your body, even before you experience any sign or symptoms. A more natural approach is taken, specifically targeting the compromised organ or system and work towards restoring your health. Over time, we retest your body to verify your strategy is working.

Call our Clinic at 847-428-8850 for more information, pricing and to schedule an appointment.

Testing at our Clinic includes the following:

Adrenal Stress Index (ASI) – (See PDF handout)
